

### GASOLINE ENGINE with Jacket Water Coolant

Values here DYNAMICALLY follow those on the Calculating Sheet each time they change  
Labels DYNAMICALLY follow computations of Sheet They are HIDDEN behind this IMAGE

Charging System

Carrying and Delivering Batteries

If you don't mind, I will do it this way . . .

Salt Pond

Traditionsal Drying of COPRA

Bongao

tristan

Filipino

Electric Motor, Chain, and Driven Sprocket

NOW INSTALLED BEHIND THE WHEEL

**FIRST.**

*I would meet with the Community, to check what their needs are, and determine what they want.*

*Do they need this kind of water, salt, drying, electricity, and transport via tricycles?*

*Do they need jobs?*

*If the Community DOES NOT want this kind of project, it is NEVER desired to force it upon them.*

*We go to another Community to find out.*

*If the Community WANTS the project, then, the NEXT step is to determine whom they want to lead the Community.*

*The Leader will need a Community to own the Project, without doubt.*

*A Community member will want to personally lay down a commitment.*

## **SECOND.**

***Go through the PROCESS of DETERMINING how the Community will WANT to proceed.***

***This “HOW” is accompanied by volunteers for specific TASKS.***

***It is now our RESPONSIBILITY to make it absolutely CLEAR what the tasks entail, their usual time-frame, the relationships between each of the tasks.***

***During the discussions with the Community, it would be DESIREABLE to understand what the tasks need (INPUTS), and the OUTPUTS of each task. Understanding the timeliness will make the participants happier than ever.***

***Our GOAL would be to understand that each PARTICIPANT will want to ENVISION his/her SIGNATURE in the Project, as it is COMPLETED by GIVING of themselves.***

### **THIRD.**

*As the Community nears the completion of each of the sub-systems, those who work on it would be **LOOKING FORWARD** to writing the **PROCEDURES** that the Operating Personnel will need to **UNDERTAKE**.*

*The people that are **PART** of the Project are **NOW** fully **IMMERSED** in the **NEW JOBS CREATED***

*They will not need **EXTERNAL** entities and so-called “experts” to **TELL** them **WHAT** to do, and what **NOT** to do.*

*One of the **SUCCESES** that the Project **BRINGS** is the **DEVELOPMENT** of **SELF-CONFIDENCE**, the **UNLEASHING** of the Community's **MOTIVATION**, people who have **BUILT** their **OWN DRIVE** towards **SHARING**.*
